

Exhibits 8 & 9  
AGREEMENTS

January 16, 1998

For 9-1-1 Emergency Communications

This agreement is made ~~between~~ the Public Safety Answering Point, hereinafter referred to as "PSAP" and the **MASON COUNTY AMBULANCE**, for the purpose of effective handling and routing of 9-1-1 Emergency calls.

CALL **HANDLING** (Exhibit 8)

Mason County **PSAP** Center in ~~the~~ Sheriff's office receiving a **call** for emergency service in your jurisdiction shall dispatch the **call** in the following manner:

Primary:

Dispatched via radio on: TX 155.355 MHz / RX 155.355 MHz

Secondary:

Dispatch via telephone at: 309-543-6614

AID OUTSIDE JURISDICTION BOUNDARY (Exhibit 9)

Once an emergency unit is dispatched in response to a request **through the system**, such unit **shall render** its service to the requesting party without regard to whether the unit is operating outside its normal jurisdictional boundaries.

The legislative intent is that 9-1-1 be used for emergency calls only. Therefore, all calls of an administrative or non-emergency nature shall be referred to your agency's published telephone number.

The PSAP Center agrees to keep all records, times, and places of all calls. AU records will be available to all participants of the 9-1-1 system.

It shall be the responsibility of your agency to maintain the report of call and the disposition of each call received.

All agreements, management, records, and service will be the responsibility of the advisory and policy board. (Mason County Emergency Telephone Systems Board)

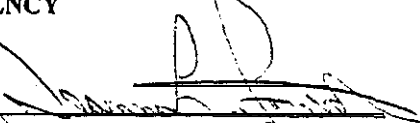

Any agreements or changes in agreements and operating policies must be approved by the advisory board.

EMERGENCY**

telephone call and it is determined not to be a TDD call, a telephone call will be placed to the number identified by ANI to determine the nature of the problem. If no answer is found, a sworn officer will be sent to the address obtained from the ALI to ascertain if an additional police, fire or EMS response is needed.

## THE TELEPHONE COMPANY(S) WILL ASSIST YOU IN ANSWERING THESE QUESTIONS

### YES NO

- 20) Is there a cell site in your area that would result in cellular 9-1-1 calls arriving at your PSAP? **YES**
- 21) Do you have procedures in place to accept and handle cellular Q-1 -1 calls?, **YES**
- 22) What considerations has management made to insure that private residential and private business switch services are provided the same level of 41-1 as public agency(s) and telecommunications carrier(s) are providing other end users of the local Q-1-1 System, as required by the Emergency Telephone System Act, 50 ILCS 750.01 et seq.? None as there are no known private switches known within the system
- 23) Will the telephone directories that will be affected by the proposed system have Q-1 -1 listed as the primary emergency number? **YES**
- 24) What type of trunking arrangement will be used to provide incoming 9-1-1 trunks?  
(Please check appropriate item).  
a. ☐ Dedicated Directed  
b. ☐ Tandem  
c. ☒ Combination of a & b
- 25) Is your selective router being provisioned by the local exchange carrier? **YES**
- 26) Please provide in detail the features to be provided by your selective router.  
Selective Routing, Default Routing, Forced Disconnect.
- 27) Will 9-1-1 circuits utilize alternate routing per the definition under 83 Illinois Administrative Code, Part 7257 **YES**
- 28) Will pay phones within the system's boundaries be appropriately placarded and have 9-1-1 coin-free dialing? **YES**
- 29) Will critical telephone equipment be utilized in the PSAP which will not operate properly during or after a power fluctuation or interruption has been experienced? **NO**  
If yes, describe the power supply used to prevent a loss of operation.
- 30) On a separate sheet, diagram the trunking arrangement(s) used and the number of 9-1-1 circuits for each switching office to the PSAP. Please label diagram as Exhibit 10, Question 30.
- 31) Please provide a detailed testing plan that explains specifically how the 911 Network and database will be tested and provide the time frame in which this will be done. The Board has traveled the system boundaries, placing calls to Q-1 -1 to verify routing and address information. In addition, the Board has tested a statistically valid sample of telephones within the system's boundaries to validate the database. This testing has been completed and will be repeated for the added exchanges proposed in this petition.
